OPEN EVERY NIGHT 'TIL 10 P.M.

Drop That Gun

With Jimmie's backing, H. C. tries to prevent Noah from violence in a scene from Hampton Players' current horseshoe staged production, "The Rainmaker" playing Friday and Saturday nights through July 13 at 129 Pacific ave., Redondo Beach. (L. to R.) Charles Slater, Jim Black and Duane Ryan.—Ron Helliwell Photo.

**HAMPTON PLAYERS PRESENT 'RAINMAKER'**

"Good show!" — "Beautiful story." — "Fine acting." These were some of the comments overheard from first and second nighters during the coffee break intermission at Hampton Players' current show, "The Rainmaker," playing Friday and Saturday nights at 129

Pacific ave., Redondo Beach, until July 13.

Audiences remarked that the entire cast seemed to have been hand picked for their parts. Anne Sutton brought out all the drama of Lizzie, the plain girl who longs for love, while Jack Drake in the title role made a dynamic Starbuck with undertones of deep loneliness.

**BERENDO SEWERS PLANNED**

Supervisor Burton W. Chace today announced that hopes for the installation of sanitary sewers in the Berendo ave. area, vicinity of Torrance, came a step closer to realization when petitions for this improvement were authorized for circulation by the County Board of Supervisors.

Jim Black as "H. C." played Lizzie's father with great warmth and sympathy, and Duane Ryan was powerful as the hard shelled Noah who is cruel only to be kind.

Charles Slater was delighted as the ebullient Jimmie, who provides most of the comedy relief.

Jim Lake was a handsomely rugged File, the man who has let the past embitter him, and Denton Wable as the Sheriff was humorous and understanding.

The petition requires the signatures of the owners of 60 per cent or more of the area involved and should be returned on or before June 1, 1958.

Patrons were also enthusiastic about the comfortable raised seats and good viewing afforded by the horseshoe staging.

Ernest Hargett of 928 Dodson ave., San Pedro, Mrs. Henry O. Berry of 1029 W. Carson, Torrance, and Hilda Carlsen of 14907 Halldale ave., Gardena, are local residents circulating the petition for signatures. As soon as the necessary number has been obtained, the Board of Supervisors will order the preparation of plans for the work.

**'Y' SUMMER PROGRAM UNDER WAY**

Total cost of the project is estimated to be \$59,200. The average assessment, based on the engineer's estimate, will amount to approximately \$7.70 per assessable front foot of the property benefited by the improvement. The final assessments will be based on the actual cost of the work and may vary from the above estimate. The work will be done under assessment district proceedings, and payments may be spread over a ten-year period.

The summer camping program of the Torrance YMCA got off to a rousing start as 28 older boys left this week on a trip to the High Sierras. These boys will enjoy eight days of swimming, sight-seeing, hiking and adventures.

Since it may take from twelve to twenty months after the signatures are secured before actual construction starts, the county authorities caution property owners about entering into contracts for the construction of house lateral sewers.

Also scheduled in the summer program is a four-week Day camp. This is for boys 8 - 12 years old. The hours are approximately 9 until 4, Monday through Friday. (Events scheduled for this event include swimming, archery, handicraft, nature lore, over-night camps, special interest trips to such places as Disneyland, Knotts Berry Farm and Harbor Tours.)

**LOSE TO PIRATES**

The Pirates continued on the trail of the Giants in the American Little League by annexing two wins the past week, downing the Dodgers 9 to 8 in extra innings.

There are still a few openings in the August 6-13 Round Meadow camping period. This camp is located in the San Bernardino mountains.

Boys aged 9 - 12 are eligible for this session. The boys will enjoy eight days of fun in the 17 new cabins, the craft lodge being full of new projects, horseback riding, swimming, hiking, archery, riflery, nature lore and fishing.

**MARTIN APPOINTED TO SHELL POSITION**

Appointment of Eugene S. Martin, 5001 Paseo Del Pavon, Torrance, as superintendent of Shell Chemical corporation's synthetic rubber plant at Torrance was announced today by Maarten Voogd, plant manager.

Martin succeeds G. S. Williamson, recently named manager of Shell Chemical's ammonia plant at Shell Point, in the San Francisco Bay area.

Steve Wirtz came through with the game's winning hit in the first extra inning to salvage the win for Tom McCune.

Before coming to Torrance in March of 1955 to fill the position of assistant plant superintendent, Martin served as senior technologist of Shell Chemical manufacturing development in New York. He joined the Shell companies as a junior technologist at Shell Oil's Wilmington refinery in 1942 upon graduating from the University of California with a B.S. degree in petroleum engineering.

Born in Oatman, Arizona, the 39 year old industrial leader came to Torrance in 1923. He attended Torrance schools for two years then moved to Inglewood where his family resided for a number of years.

Martin is married to the former Harriet Taylor of Houston, Texas. They have one son, Timothy, age 18 months. Foremost among the rubber

Eugene S. Martin
